This pre-tax benefit allows eligible employees to set aside specific funds for unreimbursed expenses. If you have predictable out-of-pocket expenses, you may want to consider opening an FSA.

- **Medical FSA:** Can be elected if you are NOT participating in a high deductible plan and can be used for eligible medical, dental, Rx, vision, and orthodontia expenses.
- **Limited Medical FSA:** Can be elected if you ARE participating in a high deductible plan, such as the Bronze plan, and can be used for eligible dental, orthodontia, and vision expenses.
- **Dependent Care Account:** Can be used for custodial expenses for a claimed dependent.

### 401(K) Savings Plan

- **Eligibility:** Employees are eligible to participate in the plan the 1st of the month following hire date.
- **Company Match:** Your employer may make contributions that are based on the amount of employee eligible pre-tax contributions that you elect to contribute. These matching contributions will be a discretionary amount calculated annually on plan year compensation to be determined by the Employer each plan year.
- Eligibility to receive the annual employer matching contribution requires the employee to be active on the last day of the plan year.
